CORE CAPABILITIES & TECHNICAL PRACTICE

1. Web Applications, AI & IT Systems Architecture

ENGINEERING & INFRASTRUCTURE

End-to-end architecture and implementation of custom web applications, automated data pipelines, and production AI systems built for security, speed, and reliability.

 - Data Scraping & API Integrations:** Programmatic data ingestion across public records portals, municipal and federal registries, and complex third-party REST/GraphQL APIs.
 - Agentic & Self-Hosted AI Systems:** Multi-step autonomous agent workflows, deterministic verification pipelines, and self-hosted or cloud-deployed AI systems with strict runtime cost governors.
 - Cloud & Database Architecture:** Cloud-native application deployment, relational and document database design, access control, and database security hardening.
2. Media, Curriculum Development & Public Policy Translation

645,000+ DAILY AUDIENCE

Distilling dense regulatory, economic, and technical topics into compelling educational curricula, high-retention video dispatches, and live keynote presentations.

 - Educational Instruction & Curriculum Design:** Authored and delivered executive training courses reaching over 500,000 enrolled students worldwide and corporate teams at Fortune 500 enterprises.
 - Public Policy Video Production:** Daily short-form and long-form social media analysis translating statutory, regulatory, and public policy issues for a combined social audience of 145,000+ followers.
 - Keynote Speaking & Executive Briefings:** Clear, engaging communication with large audiences, university programs, trade associations, and institutional leadership teams.
3. Legal Research, Compliance & Litigation Support

EVIDENTIARY & STATUTORY RIGOR

Fine-tooth-comb evidentiary development, statutory and case law review, and structured analytical support for high-stakes argumentation and regulatory compliance.

 - Trial, Mediation & Arbitration Support:** Granular evidentiary record assembly, structured argument mapping, and production of clear visual examples, timelines, and demonstrative exhibits.
 - Statutes, Rules & Case Law Review:** Deep-dive research across federal, state, and local statutes, administrative rules, agency regulations, and judicial precedent.
 - Direct Collaboration & Client Communication:** High-bandwidth, responsive partnership working directly with legal counsel, elected officials, executives, and small business owners.
